

Publication Policy

Copyright Policy

Copyrights for articles are retained by the authors, with first publication rights granted to the journal/publisher. Authors have rights to reuse, republish, archive, and distribute their own articles after publication. The journal/publisher is not responsible for subsequent uses of the work. Authors shall permit the publisher to apply a DOI to their articles and to archive them in databases and indexes such as EBSCO, DOAJ, and ProQuest.

Open-access Policy

We follow the Gold Open Access way in journal publishing. This means that authors publish in the journals that provide immediate open access for readers to all articles on the publisher's website. The readers pay nothing, while authors (or their institutions or funders) pay a publishing fee to maintain the journal operation.

All articles published are open-access articles distributed under the terms and conditions of the Creative Commons Attribution license.

Submission Policy

Submission of an article implies that the work described has not been published previously (except in the form of an abstract or as part of a published lecture or academic thesis), that it is not under consideration for publication elsewhere, that its publication is approved by all authors and tacitly or explicitly by the authorities responsible where the work was carried out. However, we accept submissions that have previously appeared on preprint servers (for example: arXiv, bioRxiv, Nature Precedings, Philica, Social Science Research Network, and Vixra); have previously been presented at conferences; or have previously appeared in other "non-journal" venues (for example: blogs or posters). Authors are responsible for updating the archived preprint with the journal reference (including DOI) and a link to the published articles on the appropriate journal website upon publication.

The publisher and journals have a zero-tolerance plagiarism policy. We check the issue using two methods: a plagiarism prevention tool (iThenticate) and a reviewer

check. All submissions will be checked by iThenticate before being sent to reviewers.

We insist a rigorous viewpoint on the self-plagiarism. The self-plagiarism is plagiarism, as it fails to contribute to the research and science.

Waiver Policy

We charge authors a publication fee for each article they publish. The charges vary from journal to journal; please find the exact amount required on the journal's webpage. This fee helps the open-access journals to cover their operational expenses. To avoid confusion and ensure fairness among customers, we do not waive or reduce publication fees to anyone. Waiver policy is only applicable for editorial members of this journal, who can get free publication for one article per year.

Deposit Policy / Archiving Policy

We follow Sherpa/Romeo's green archiving policy. Both pre-print and post-print or publisher's version/PDF can be archived, without restrictions.
